

Charlatans at work?

Posted by Newsline - 12 Sep 2018 18:57

Full council meeting 12 September 2018

A full report will follow, however in the meantime we will provide a slight flavor of some highlights.

At the start of the meeting Daniel Devlin appears to want audio recording to be banned in the public gallery.

Despite the meeting being web cast and that includes audio.

However he did not switch on his microphone whilst making the request.

Neither did he switch on his microphone when he was making comment during the meeting.

Annette Ireland was very animated and at one stage said that Cllr David Macdonald should stay in his ward.

Her inference, which we will reproduce was that he misread stats for the residents of Williamwood, Clarkston and Netherlee.

Perhaps this person should have a reality check.

Cllr David Macdonald is an elected member for Busby, Clarkston, Williamwood, Stamperland and Netherlee as she is.

Did the Director of the Environment reveal part of the consultants report to councillors that he allegedly trying to conceal from the public?

Newsline has reported on this previously and once again Supreme Leader James Fletcher appears to be unable to release the reins of control.

He answers every question that is either directed or intended for the alleged Leader of the Council Anthony Buchanan.

Even when Supreme Leader Fletcher asks the alleged leader if he wishes to speak, the alleged leader declines the offer.

Instead of being an impartial chair, each and every meeting is the 'Fletcher Show'.

Next up we have the 'Queen of Fairies' as she is apparently being described by many residents.

Cllr Annette Ireland

Apparently according to the fragrant Annette Ireland she wants to see improvements to pitches in ward 4.

She was responding to a paper where the East Renfrewshire strategy for pitches was asked to be noted by elected members.

However she took the opportunity to say that in Netherlee there were molehills all over.

Wanted something done about Overlee (apparently she was unaware that this was well underway and required to be informed by another member)

And wanted something done about Newford Grove.

Even Provost Fletcher picked up on her rant and said "Are you only interested in ward 4"

The apparently shocked Ms Ireland replied 'yes'

Next up she has yet another go at Cllr David Macdonald.

On this occasion she quotes some spurious figures regarding the leisure center consultation and claims that in response to Cllr Macdonald's claim that he had spoken to residents and they did not wish a new build, she states that he could not have spoken to very many.

She then quotes alleged figures for respondents from Williamwood, Clarkston and Netherlee.

Then she makes the most outrageous statement ever.

"Cllr Macdonald should be looking after his own constituents"

Cllr Macdonalds constituents reside in Netherlee, Staperland, Williamwood, Clarkston and Busby.

Exactly the same ward as Ms Ireland allegedly represents.

Next she starts shouting across the chamber and interrupting Councillor Swift whilst he is in full flow delivering his views to the council.

Was it something important, well she did not switch on her microphone but we can say that she was shouting about figures concerning the consultation.

This earned a **PUBLIC WARNING** from the Provost to go through the chair if she wishes to speak.

Then she has another go at her apparent favorite subject, Cllrs Aitken and Macdonald.

They have apparently let the side down, there should be 18 Cllrs on committees but as they have resigned from committees there are now only 16, doing the work of 18.

As we has shown on a previous thread this is simply not the case and whilst we appreciate that Ms Ireland has inherited Ms Montague's ward, we were unaware until now that she also appears to have inherited her inability to undertake basic maths.
