

Is this Cllr loosing his focus????????????

Posted by Newsline - 14 Feb 2020 21:28

Newsline has for some time had concerns regarding this councillor and his current grasp on local issues.

=====

At present we will not report on his constant alteration of political allegiance.

His use of his social media account to have, what we would describe as somewhat vicious attacks on one UK Political Party.

His permanent post that appears to be designed to encourage viewers to 'dislike' another ward 4 councillor.

We will concentrate only on his social media posts at this time, and what we will loosely describe as domestic posts.

The Councillor was provided with the opportunity to comment, however he refused.

This Cllr is demanding that any residents, who receive a notice from Royal Mail that they attempted to deliver a parcel.

Take the card as requested to the sorting office to uplift the parcel or package.

If the member of staff at the sorting office hands over your package and fails to request your identity, you must **demand** that the member of staff requests your ID before you accept the package.
