It became apparent about six weeks ago that ERNHW / Newsline and our chair Tom Taylor were being subjected to, in our opinion, an unscrupulous smear campaign.

Our reputation that we have build over the past 15 years, of honesty and truth was being undermined, by in our opinion TWO people, who also in our opinion have scurrilous motives.

There were indications on social media (Scocmed) that we were 'allegedly' the subject of police investigations.

We immediately, as subject to site policy, suspended all communication that could refer or relate to an 'Active' police enquiry.

WE also made our own enquiries and we are now in a position to present 'The Whole Truth.....

Our Chair and Editor Tom Taylor has spoken with the local police and ascertained that he is not and never has been a suspect in relation to the alleged crime related on socmed.

AS such we are now in a position to provide a 'Timeline' of events.
